Zoom Hardware Certification Program

The Zoom Hardware Certification Program is for manufacturers that produce hardware designed to integrate with Zoom. This program allows you to certify that select hardware is compatible with Zoom software. Certification includes testing at a third-party lab as well as Zoom's own subjective testing.

Program Benefits

Zoom Certification

Get listed on the Zoom Certified Hardware page and receive a Zoom Certified badge which lets customers know your hardware has undergone comprehensive testing.

Zoom Recognition

Get listed in the Zoom hardware partner directory to be recognized as a trusted partner of Zoom.

Referral Rewards

Gain access to the Zoom Referral Partner Program which gives you commissions for sales generated by referring qualified Zoom customers.

Program Requirements

✓ Testing Fee

A device testing fee will be collected by a Zoom-authorized third-party lab for hardware certification

✓ Landing Page

Zoom and hardware partner landing page showcasing the joint solution

✓ How-to guides

Specific support and configuration guidelines for setting up the solution

How to Get Your Hardware Certified

1. Apply at zoom.us/certified
2. Complete the form for key stakeholders and product information
3. Complete the Zoom hardware partner agreement
4. Review the certification guidelines and requirements
5. Submit necessary checklist once ready for lab introduction (if applicable)
6. Work with third-party lab to complete testing
7. Once testing is complete, manufacturer obtains Hardware Partner status and an accompanying brand kit for Zoom Hardware Certification
8. Manufacturer continues to ensure compatibility with Zoom
